Jewelry Design and Production Casting

Instructor Name: Wade Petersilie

Instructor Email: petersilie.wade@gmail.com

Please note you can bring the following items from home if you have them or purchase them from instructor throughout the class: gems, crystals, metals (silver, gold, etc.), casting, and wax. If you are interested in purchasing from the instructor, here are some estimates on what the materials fee can look like:

1. Casting and wax fees average $25 per project.
2. Gems, crystals, metals are sold at current market price can range between $15-$40+ depending on the materials you choose to work with.
3. ***Project Example:*** A simple ring, pendant, and silver has generally amounted to $20.00 in past classes, depending on the weight of the piece. Gems for synthetic or manmade up to 1ct. in size can average $10 each. Total approximate project cost with wax, casting, and no gems can average to about $50.

Please note this will be discussed in more detail on the first day of class.
